

As holder of this card, I pledge to follow all ANSI A92 standards for the safe operation lifts and any other applicable safety guidelines for construction and industry as well as:

1. Read and Familiarize myself with all manuals for each AWP.
2. Conduct a Prestart Inspection before each day or before each work shift.

3. Ensure operators are trained.

4. Perform a Workplace Inspection.

5. Ensure that before each movement or repositioning of the lift:

The AWP is operated on a surface within the limits specified by the manufacturer

Outriggers, extendible axes, or other stability enhancing means are used as required by the manufacturer.

Guardrails are installed and access gates or openings are closed per the manufacturer's instructions.

The load and it's distribution on the platform are in accordance with the manufacturer's rated capacity.

There is adequate overhead clearance.

Maintain the Minimum Safe Approach Distance (MSAD) from energized power lines.

All PPE is worn including a personal harness and lanyard attached to the manufacturer's anchorage point.

6. Follow all manufacturer's Warnings and Instructions.
