

As holder of this card, I pledge to follow all ANSI A92 standards for the safe operation lifts and any other applicable safety guidelines for construction and industry as well as:

1. Read and Familiarize myself with all manuals for each AWP.
2. Conduct a Prestart Inspection before each day or before each work shift.
3. Ensure operators are trained.
4. Perform a Workplace Inspection.
5. Ensure that before each movement or repositioning of the lift:
 - The AWP is operated on a surface within the limits specified by the manufacturer
 - Outriggers, extendible axles, or other stability enhancing means are used as required by the manufacturer.
 - Guardrails are installed and access gates or openings are closed per the manufacturer's instructions.
 - The load and it's distribution on the platform are in accordance with the manufacturer's rated capacity.
 - There is adequate overhead clearance.
 - Maintain the Minimum Safe Approach Distance (MSAD) from energized power lines.
 - All PPE is worn including a personal harness and lanyard attached to the manufacturer's anchorage point.
6. Follow all manufacturer's Warnings and Instructions.
